

HANDY **PALRAM** **USB LIBRARY** FOR ARCHITECTS & DESIGNERS

Dear <FIRSTNAME>,

Palram Australia is aware many architects and designers wish to streamline access to their libraries. Using digital media and tools is an ideal way of doing this.

To help you, we have created a carry anywhere, easy to navigate USB containing all of the essential pictorial and technical information you need. Just put it on your key ring and you will always have access to your library data, including photo examples of product installations.

Palram Australia will be launching many other innovative products and support tools during 2010, starting very soon.

You can order your USB online, at either our 'New Products' webpage [order here](#) or our eNews Contact page [order here](#).

New Release - Palram Australia's Sunglaze

Palram Australia officially launched its unique Sunglaze roofing system just before Christmas. (This product is a cost-effective alternative to other glazing systems). We have also produced a free sample pack which includes a standing seam section with example opaque and clear polycarbonate panels.

For further information about Sunglaze visit our New Products webpage [Sunglaze](#)

Order your Sunglaze Sample Pack here: [Sunglaze Sample Pack](#)

Feel free to contact us at anytime to discuss how we can assist you: [Contact Us](#).

Kind Regards,

Your PALRAM Support Team

Forward this message to your associates – so they can order their PALRAM Sunglaze Sample Pack.
